

CHETU MICROFINANCE LTD

Management Information System User Manual

Version 1.0 · 26 August 2026

Covers Groups, Members, Loans, Collections, Reports, Transfers and Administration

1. Before you start

What this system is for

This system records the whole life of a group loan: forming a group, admitting members into it, raising a loan application, approving and disbursing it, collecting weekly repayments, and closing the loan — whether it is repaid, settled early, or written off. Everything you do is recorded against your name.

The three roles

What you can see and do depends on your role. This is enforced by the system itself, not by convention, so you cannot accidentally reach another branch's records.

Role	Sees	Can do
Loan Officer	Only their own members, groups and loans	Create groups, admit members, raise loan applications, disburse approved loans, collect repayments
Branch Manager	Everything in their branch	Approve or reject groups, members and loan applications; collect; move members between groups; reassign groups
Administrator	The whole institution	Everything, plus staff accounts, branches, loan products, write-offs and reversals
Auditor	The whole institution	Nothing — read-only everywhere, by design

Why a manager cannot disburse. The Branch Manager approves the loan and the Loan Officer releases the cash. Two different people complete the transaction, so no one person can both authorise and pay out. This is deliberate and is not a fault.

Signing in

Use **either your email address or your phone number**, together with your password. Your phone number works because that is what field officers are used to; your email works because that is your account.

On a computer

On a phone

The sign-in screen. The same details work on a computer and on a phone.

If you forget your password, an Administrator resets it from System Settings → User Management. Nobody, including an Administrator, can read your existing password.

2. Finding your way around

The menu on the left groups the system by the work you are doing. On a phone it is hidden behind the ☰ button in the top bar; tap a heading to open its screens.

The menu on a phone, with the Members section opened.

The dashboard

The dashboard is what you see when you sign in. It greets you, states what is waiting for your attention, and then shows the portfolio *you* are responsible for.

On a computer

On a phone

The Administrator dashboard: the whole institution, including the cash position.

A Loan Officer sees only their own book — and no institutional cash figures, because they do not hold the ledger.

Notifications

The bell in the top bar carries everything that has happened and everything waiting on you — groups and members submitted for approval, loans approved, cash disbursed, repayments received, transfers awaiting receipt. **Tap any notification to go straight to the screen where you act on it.**

Notifications, newest first and grouped by day. Unread entries carry a blue bar.

3. Groups

A group is the unit the institution lends to. Members belong to a group, and the group meets weekly to pay.

Group Create → Waiting for Approval → approved → Group List

rejected → Group Rejected List → corrected → back to approval

1. A **Loan Officer** opens **Groups → Group Create** and fills in the group name, branch, meeting day and location. The group code is issued automatically.
2. The group appears under **Waiting for Approval Group**. It cannot take members or loans yet.
3. A **Branch Manager** opens the same screen, reviews it, and approves or rejects it with a reason.
4. Approved groups appear in **Group List**. Rejected ones go to **Group Rejected List**, where the officer can correct and resubmit them.

On a computer

On a phone

Groups waiting for a manager’s decision. Tick, cross, or edit.

An officer cannot approve their own group. The system refuses it at the database level, so it cannot be worked around from any screen.

4. Members

A member is admitted into a group and pays a one-off admission and passbook charge.

Member Admission → **Waiting for Approval** → approved → **Member List**
rejected → **Member Rejected**

Admitting a member

Open **Members** → **Member Admission**. Choose the branch, officer and group, then capture the member's details. Only **approved** groups appear in the group list — a member cannot be put into a group that has not been passed.

On a computer

On a phone

The admission form. Fields are full width on a phone so they can be filled in the field.

On saving, the system charges **UGX 5,000 admission** and **UGX 5,000 passbook** against the member and opens their savings account.

The member lists

Members are separated by state so each list answers one question:

- **Member List** — active, approved members
- **Waiting for Approval Member** — admitted, not yet passed
- **Member Rejected** — turned down, with the reason; the officer corrects and resubmits
- **Member Inactive List** — left or dormant

- **Member Death List** — recorded deceased, kept separate so any open loan can be settled

On a computer

On a phone

Member List. Each record shows branch, officer, group and contact details, with actions on the right.

5. Loans

The charges

Every loan carries the same charges. They are deducted at disbursement, so the member receives the principal less the total.

Charge	Rate	On a UGX 1,000,000 loan
Processing fee	4% of principal	UGX 40,000
CRB fee	1% of principal	UGX 10,000
Security deposit (<i>refundable</i>)	15% of principal	UGX 150,000
Group maintenance	UGX 2,000 flat	UGX 2,000
Total deductions		UGX 202,000
Net cash to the member		UGX 798,000

The charges are written onto the loan when it is approved. If the schedule ever changes, existing loans keep what they were actually charged — history is never restated.

Loan products

A product sets the interest rate, the amount range and the repayment period. Every application picks one. Only an Administrator can create or change products.

On a computer

On a phone

Loan products, with the terms each one offers.

From application to cash

Loan Application → **Waiting for Approval** → approved → **Waiting for Disburse** → disbursed → repayments begin
rejected → **Loan Rejected List** → corrected → resubmitted

1. **Loan Application** — the officer searches for the member, picks the product, amount and period, sees the full repayment schedule and charges, picks a guarantor from the group, and the member consents.
2. **Waiting for Approval** — the manager reviews the figures and approves or rejects.
3. **Waiting for Disburse** — approving creates the loan and its weekly schedule. The officer releases the cash here.

On a phone

Rejected applications, with the reason. The officer corrects and resubmits.

6. Collections

Money coming back in. Choose the screen that matches what you are collecting:

- **Group Wise Collection** — the normal weekly round, a whole group at a time
- **Overdue Collection** — chasing instalments already missed
- **Advance Collection** — a member paying ahead
- **BadDebts Collection** — recovering on a loan already declared bad
- **Loan Settlement** — a member clearing the whole balance early

The screenshot shows the 'Group Wise Collection' interface on a desktop. At the top, there's a header with 'Chetu Microfinance Ltd', a date/time display ('Wednesday Open', '10:52:38'), a search bar, and a 'BANK LIQUIDITY' indicator showing 'UOX 33,000,000'. A left sidebar contains navigation links: Administrator, Dashboard, Groups, Members, Loan - Management, Collections (highlighted), Debt & Security, Transfers, Savings - Management, Financial Ledger, Reports, and System Settings. The main area has filters for 'Select Branch', 'Loan Officer', 'Select Group', and 'Collection Date' (26/08/2026). Below these is a search bar and a table with columns: GROUP CODE, MEMBER CODE, MEMBER NAME, LOAN NO, DISBURSE DATE, INSTALLMENT, OUTSTANDING, OVERDUE, and COLLECT AMOUNT. A message at the bottom of the table says 'Select branch, officer and group, then press Search.' A yellow warning box at the bottom left says 'Select a group' and 'Choose the group you are collecting from.'

On a computer

The screenshot shows the 'Group Wise Collection' interface on a mobile phone. The top bar includes a menu icon, user profile, language selector, notifications, and a search icon. Below this are 'PDF' and 'Excel' buttons. The main form has dropdowns for 'Select Branch', 'Loan Officer', and 'Select Group', followed by a 'Collection Date' field set to '26/08/2026'. A blue 'Search' button is prominent. Below the button is a search bar with the placeholder 'Search by Group name, code / N'. At the bottom, a yellow warning box says 'Select a group' and 'Choose the group you are collecting from.'

On a phone

Group Wise Collection: pick branch, officer and group, then take the money.

When a loan goes bad

Bad Loans List ages every overdue loan and lets a manager declare it a bad debt with a comment. Only an Administrator can then **write it off**, which closes the loan and removes the balance from the portfolio.

On a computer

On a phone

Bad Loans List, aged by how long the loan has been in arrears.

7. Reports

Every report filters by branch, officer, group and date, and downloads as **PDF** or **Excel** using the buttons at the top right.

On a computer

On a phone

The reports index.

Report	Answers
Disbursement / Master Roll	What did we lend out, and to whom?
LO Wise Group Realizable	What should each officer collect from each group?
Daily Overdue	Who is behind today?
Outstanding Report	What is still owed on every loan?
Day Collection List	What came in on a given day?
Overdue Collection List	How much of the arrears did we recover?
Portfolio at Risk	How much of the book is in arrears, and how badly?
Loan Closure Report	Which loans ended, and how — repaid, settled or written off?
Approval Pipeline	What is stuck waiting for a decision?
Reversal Register	What has an Administrator rolled back?
Fee Collection Report	What have we earned in fees?

On a computer

On a phone

Portfolio at Risk: ageing bands, and the PAR ratio over the open book.

On a computer

On a phone

Fee Collection: admission, passbook, processing, CRB and group maintenance, with the refundable security kept separate.

8. Transfers

- **Member Branch Transfer** — sends a member, with their loans, to another branch. Nothing moves until the receiving branch accepts.
- **Receive Member** — the receiving manager accepts (choosing the group and officer) or rejects.
- **Group Interchange** — moves a member to another group in the same branch. Immediate.
- **Group LO Transfer** — hands a whole group and its members to another officer.

BRANCH	LO	GROUP	MEMBER CODE	MEMBER NAME	REGISTERED	OPEN LOANS	OUTSTANDING	STATUS	ACTION

Group : Dembe Womens Group
Member Code : CM-CL-2026-0001
Member Name : Nangobi Mary
Registered : 07 Feb 2026
Open Loans : 1
Outstanding : 805,000

On a phone

Sending a member to another branch. Open loans and arrears are shown before you send.

A member with an open loan can still be transferred — the loan follows them, and the receiving branch takes over collection.

9. Administration

Staff accounts

System Settings → User Management. Creating an account needs a full name, phone number, **email address**, an initial password, and a role. Branch Managers and Loan Officers must be attached to at least one branch — that attachment is what limits what they can see.

On a computer

On a phone

Staff accounts and the role each one holds.

Branches

System Settings → Branch Network. Create a branch before creating staff, groups or members — everything else is attached to one.

On a computer

On a phone

The branch network.

System settings

Institution name, currency and the text printed on reports and receipts. The fee schedule is shown here for reference but is fixed in the system, because charges are written onto each loan when it is approved.

System Settings
Institution identity, the standing fee schedule and printed document text. Applies to every branch.

INSTITUTION

Registered name
Chetu Microfinance Ltd

Printed at the head of every report, receipt and loan agreement.

Currency code
UGX

Shown against every amount in the system.

Interest rates are set per loan product in [Loan Products](#), not here — each product keeps the rate it was saved with. Loan charges are fixed by the fee schedule below.

FEE SCHEDULE

Admission fee once per member	UGX 5,000	Passbook fee once per member	UGX 5,000
Loan processing fee of principal	4%	CRB fee of principal	1%
Security deposit of principal, refundable	15%	Group maintenance per loan	UGX 2,000

Charges are stored on each loan when it is approved, so a loan always reports what it was actually charged. Changing the schedule affects new loans only and is a code change, not a setting.

DOCUMENT TEXT

Report header
Chetu Microfinance Ltd - Official Financial Operations Report

Receipt footer
Thank you for choosing Chetu Microfinance Ltd. Prompt repayments build a strong credit standing.

On a computer

System Settings
Institution identity, the standing fee schedule and printed document text. Applies to every branch.

Passbook fee once per member	UGX 5,000
Loan processing fee of principal	4%
CRB fee of principal	1%

On a phone

System settings, with the standing fee schedule.

Danger zone. "Reset all operational data" permanently deletes every member, group, loan, repayment and audit log. You must type `DELETE ALL DATA` to confirm. There is no undo and no backup is taken.

The audit trail

Audit Logs records every action, who took it and when. The **Reversal Register** is the counterpart for rollbacks: reversing a receipt deletes it, so the register is the only surviving record that the money ever moved. It is the first thing an auditor should read.

An Auditor sees the whole institution, read-only, with no action links.

10. Quick reference

Who does what

Action	Who
Create a group / admit a member	Loan Officer, Branch Manager, Administrator
Approve or reject a group / member / loan	Branch Manager, Administrator
Raise a loan application	Loan Officer, Administrator
Disburse a loan	Loan Officer, Administrator
Record a repayment or settlement	Loan Officer, Branch Manager, Administrator
Declare a bad debt	Branch Manager, Administrator
Write off a loan	Administrator only
Reverse a disbursement or receipt	Administrator only
Receive a transferred member	Branch Manager of the receiving branch, Administrator
Manage staff, branches, products, settings	Administrator only
Anything at all	<i>Never an Auditor — read-only by design</i>

If something will not work

What you see	What it means
The group you want is not in the list	It has not been approved yet, or it belongs to another branch.
"Only a Branch Manager or Administrator can approve"	You are signed in as the officer who raised it. Approval is somebody else's job.
"Only an Administrator can write off a loan"	Correct — ask an Administrator.
A list is empty after pressing Search	The filters exclude everything. Clear the branch, officer and group and search again.
You cannot create a Loan Officer	No branch exists yet. Create one in Branch Network first.
Nothing at all appears anywhere	Your account may not be attached to a branch. An Administrator fixes this in User Management.

Chetu Microfinance Ltd — Management Information System. Every figure in this manual comes from demonstration data and does not represent a real portfolio.
